

GEA JOHNSON

After only a few years in the sport, Gea posted the fastest time of ALL US ELITE WOMEN. Gea is a Masters World Champion and World Record Holder in 2 events. Remarkably, she is also one of the top US Elite sprinters and currently has the fastest time in the USA of ALL Elite women in the

500m. This not only includes women in her age group, but all US elite women who will be vying for the Olympics (most of these women are in the early 20's with many years of experience). Incredibly, Gea is accomplishing these goals at age 48 and with substandard training conditions and equipment. Gea trains on the street in the desert in Arizona, where there is no velodrome. Gea's amazing story needs to be told and supported. When Gea is able to move near a velodrome and train properly, one can only imagine what she will be capable of accomplishing. We know Gea is going to make history.

GEA JOHNSON – TRACK CYCLING

- Masters World Champion x4
- Masters World Record Holder x2
- Top US Elite Sprinter

IMMEDIATE GOALS:

- Compete on the Elite UCI/World Cup circuit to gain the experience and points necessary to be eligible for the Olympic Team.
- Break US Elite National Record
- Re-break my own Masters World Records

“A champion doesn’t always win with ease. A true champion has faced adversity, tasted failure, seen disappointment, and yet still rises to the challenge on every front, emerging victorious with a bold determination to share the process with others.” -Gea Johnson
