from page 6

can operate several different clubs on the same computer).

The system offers outstanding features such as:

- Members admittance control — members receipts and status is immediately updated and available at the front desk.
- Completely integrated accounting.
- Members usage — the system will provide information on facility and equipment usage and even to what extent each member uses the equipment.
- Billing, renewal billing and credit control.
- "Check Free" members receipts and salesman commissions.

Today the Sports Club Computer System is a mature tested package and can be run on several different brands of computers. In fact, it's not even necessary to throw out your old slow single user PC — Dr. Bentel can now upgrade and adapt them to accept this fast, multi-user package.

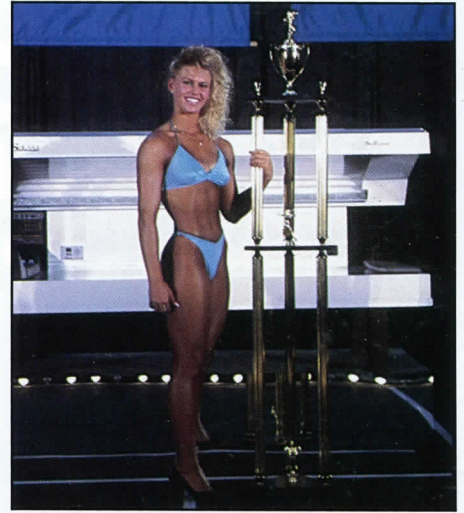

Dr. Bentel received his PhD in mathematics from Stanford University in 1975, and after a post doctoral award at the University of California San Francisco in Computer Science he spent a year at NASA. He has since been consulting and developing computer software while presiding over his own computer software corporation.

## GEA JOHNSON DESTINED TO BE A STAR

Success seems to fit Gea Johnson like a glove. Since receiving her crown as "Ms. National Fitness" last fall, Gea has been in the limelight several times.

In January, the Touchdown Club's 51st Annual Awards ceremony at the Sheraton Washington hotel was attended by many celebrities, athletes, and corporate leaders; but Gea Johnson was the only female athlete to receive an award. With cameras clicking and the audience applauding, Gea accepted the Dial Award for the most outstanding female scholar-athlete in the country! Her leading credentials, high morals, stunning looks, and sparkling personality blend together like apple pie and ice cream — the crowd loved her!

Gea is a senior at Washington High

School in Phoenix, and has never received a grade less than an A. She was homecoming queen and is the senior-class president. She is a national high school heptathlon champion; and although she has mastered seven sports, her sights are focused on track & field. In fact, Gea is directing all her energies toward making the 1988 Olympics. the prestigious Dial Award is indeed an outstanding achievement; yet is not doubt just one of many more that will be bestowed upon her.

"I'm obsessed with being the best

person out there," said Gea in a recent newspaper interview with her hometown *Arizona Republic*. "I put it all on myself. My mom will tell me to not get all stressed out . . . she'll tell me to relax; stop working so hard, but I'm not like that." Last July, Gea won all of her races in the international track meet competition held in China and Hong Kong, which earned her the Elit Athlete-Gold Medal. She also broke the national heptathlon record at the Mount San Antonio College meet in California.

Following her win of the "Ms National Fitness" competition, Gea has done a two-page layout for *Flex* magazine, a six-page piece for *Strength Training for Beauty* magazine, and was asked to be in a movie.

"My coach, Bruce Frankie, and my mom advised me not to accept the movie offer right now," explained Gea. Even

though there was a lot of money involved, they felt it wouldn't be in my best interest — that it would get in the way of my track career. We're hoping that there will be another picture offer for me at a later date. It would really be fun!"

So for the moment, Gea Johnson will concentrate on track & field training; and there might be other sacrifices she'll have to make between now and the 1988 Olympics. If so, Gea figures it'll be worth it. For the moment, track is number one for Gea.

This sunny 18-year old beauty has an unlimited amount of drive & determination to reach her goals; and an abundance of natural talent to achieve them. With this combination, Gea Johnson has already begun to make a name for herself. Whether it be as a movie celebrity, an Olympic champion, or both — Gea John-

son appears destined to be a star! Look for more on Gea in an upcoming issue.

### **THE TANNING HUT/PSORACX MEDICAL HONORS MARGE WILLIAMS**

## Enjoy maximum flexibility with Mini-Bar.™

Now your members can do push ups, back rows and bench dips safely, easily, and more effectively with MINI-BAR.

MINI-BAR puts an end to: members waiting impatiently for benches; big body builders working out on benches that shake and tremble; and benches that wind up all over the gym.

Beginners, women, small body builders and the largest lineman can now exercise comfortably. With MINI-BAR, there's no need to reach back and grab a wobbly bench. The user's arms are in a natural, direct line with the shoulders.

This is great for members with large lats, and it really works the stubborn triceps area.

Plus more muscles are worked in new and different ways since bench dips on MINI-BAR can be done with the added flexibility of different hand positions and different widths for a complete workout. For busy gyms, there's even the flexibility of a MINI-BAR with two-person capacity so waiting time is minimal.

For complete information, send for our free brochure today. Learn more about MINI-BAR, the high quality, top performance equipment that lets you enjoy maximum flexibility.
